Processing Codes/System Requirements

This section provides charts and tables that include an explanation of the different reject codes and how to respond to each. Other tables provide information that further explains other processing codes associated with the CPS EDE process.

Summary of Tables

In this section, you will find several tables to assist you when reviewing files.

2000-2001/2001-2002 ISIR Cross-Reference

This table is a cross reference of the 2000-2001 Institutional Student Information Record (ISIR) field number, start position, and end position with the 2001-2002 ISIR field number, start position, and end position. It also lists valid field content for the field that has changed from the last year.

Table of Reject Codes and How to Respond to Each

This table is used to determine the meaning of each reject code possible on a Student Aid Report (SAR) or ISIR. The table also outlines how to correct each reject and references comment codes associated with the rejects.

Batch Level Error Messages

This table associates reject codes at the batch level and includes the text for that reject code, a description of the error and a resolution. These error messages indicate that the batch was not processed. The structure of the file was not valid and the Central Processing System (CPS) was not able to process the file. You will need to reformat the file appropriately and again send it to the CPS for processing. No Institutional Student Information Records (ISIRs) will be generated when there is a Batch level error.

Record Level Error Messages

This table reports the record level reject codes. The actual text for each reject code, a description of the error and a resolution for each error is listed. These error messages indicate that the individual student record was not processed. Any student record in the batch, which does not receive a record level error message, results in a processed ISIR for that student. (Those ISIRs will be sent back later in another file.) You will need to fix any student record with a record level error message and send it to the CPS again for processing so an ISIR will be generated.

Assumption Overrides

This table associates the override codes with the assumption being made. It also explains what will happen if you use this code and an example of when you would use this code.

SAR/ISIR Correction Flags and Correction/Highlight Field Numbers

This table is used to determine which fields were corrected in the previous transaction or which fields are highlighted on the ISIR. It also defines the field positions for the SAR field, the FAFSA field name, and the question number on the FAFSA.

NSLDS Loan Program Codes

These codes are used to determine the loan program code on up to 12 loans in the NSLDS portion of the ISIR.

Current Status Codes

These codes are used to determine the current status on up to 12 loans in the NSLDS portion of the ISIR.

State/Country/Jurisdiction Codes

This table is used to determine the valid state abbreviations used for Student's Permanent State, Student's Driver's License State Code and for Student and Parent State of Legal Residence.

Correction Data Entry Specifications

This table is used in conjunction with the History Correction Export Record Layout found in the Record Layout section. This table defines the SAR field number and field length. It defines what data is valid to send for each SAR field on a correction record. The table also indicates if the SAR field is a signed value, the justification of the SAR field, and if the field can be corrected to blank.

ISIR Comment Codes and Text

This table associates ISIR comment codes with the text for the code. It will also indicate if the comment code sets the C code, which indicates that a school resolution is required. The table also indicates if a reject code is associated with a particular comment code. This table is helpful when resolving SAR/ISIR rejects as it highlights the comments to which you should pay special attention.

2001-2002 SAR/ISIR COMMENT CODE CROSS - REFERENCE TABLE

This table lists all of the CPS comment codes, a definition for each code that indicates the action causing the comment code to be set, and whether there is text associated with the comment code to print on the SAR or the ISIR.

2001-2002 SAR/ISIR Comment Code Cross-Reference

Beginning in the 2001-2002 processing year, comment codes will be set by the CPS on the student's transaction to provide information to you in the Financial Aid Office, but will not cause text to print on either the SAR or the ISIR. The comment codes are as follows:

> 002; 011; 012; 014; 015; 017; 019; 022; 025; 027; 029; 032; 034; 035; 036; 088; 091; 092; 093; 096; 098; 119; 121; 122; 123; 126; 131; 137; 140; 153; 164; and 165.

The following table lists of all the CPS comment codes, a definition for each code that indicates the action causing the comment code to be set; and whether there is text associated with the comment code to print on the SAR or the ISIR.

For example, comment code 002 is turned on by the CPS when the Early Analysis Flag is set on the student's transaction (ISIR field #116 = 1). The code will be included with all other comments codes on the ISIR layout (in ISIR field #261 - Comment Codes). However, there is no associated text to print on the student's ISIR.

Comment codes not in use for 2001-2002 are identified with a definition of "Not Used".
